

Appendix I

The Los Angeles County General Plan lays out the goals and policies by which all County agencies must strive to achieve. This larger policy framework is implemented through specific and quantifiable actions. While all County agencies should work towards these goals through the augmentation of their day to day operations and even their Department philosophies, several direct implementation actions are recommended in this Plan. These Implementation Actions consist of clear and concise strategies that once completed have a large impact on the County. Many of these Implementation Actions are leverage points where a small nudge in one direction can shift an entire outcome. These strategic initiatives seek to implement actions that can affect many goals at once. The following Implementation timeline lists the Implementation Actions by Element and prioritizes them in the year from adoption when they should begin implementation:

Implementation Timeline

Action	Year 1	Year 2	Year 3	Year 4	Year 5	On going
LAND USE						
LU 1.1
